

RIVER & TIDE MILLS OF THE TENDRING HUNDRED

WRABNESS

Wrabenasa

In the lands of St. Edmunds, now one mill. [8,11]

Wrabness tide mill.

William le Blund in the reign of Henry iii held in the manor of Wrabness land and a water mill for which he paid the Abbott 10 marks a year. In 1418 John Hendearich citizen of London held of the Abbott the Manor of Wrabness with a sea water mill. [Morant v1, p491]

1264 manor of Wrabenasse - water mill [Inq post Mort, 4 Jun 48 Hen iii]. 1282 water mill held of the abbot of St Edmunds [Inq post Mort 10 Ed i]

A possible location for the tide mill is to the west of Wrabness Hall in the bay at the head of Sluice Rill in Jacques Bay.

BRADFIELD

le dam de Bradefeldemell 1392 PRO catalogue of ancient deeds iv. [Reaney pp330]

A large pond is shown on maps to the north of Millgrove Wood.

Water mill probably replaced by a windmill that stood to the west of the church.

BEAUMONT CUM MOZE

Mosam

In the lands of Geoffrey de Mandeville, (given to him by the king, was held by Leofson as a manor), then one mill, now none. [18,30]

A map of Beaumont cum Moze & Gt. Oakly dated 1688 shows a "millfeilde" adjacent to salttings on The "Canfleet water" near New Moze Hall. [ERO. D/DBmP5]

GT & Lt OAKLY

Accleim (Gt.Oakley)

In the lands of Robert Geron, (was held by Aelfric Kemp as a Manor), now one mill. [38,32]

Crown grant of a water mill in Lt Oakly, 1609. [D/Dre Z4]

Deeds of Mill pond farm In Gt and Little Oakly. [D/DE1 M28]

1675; Deeds inc water mill in Lt Oakly [D/DU 689/53]

One landing place, The mill Little Oakly (1565/77). [EAT vol 17]

17/2/1551 Lease granted to Thomas Darcey Knt of the water mill in Lt Oakly, Essex in the tenure of John Thirlethorpe, (Cal of Pat Rolls) {Simmons }

1798 miller invasion returns - Richard Jessup at the watermill [D/DHa 1/10]

1559 will Lt Oakly mentions Giles Blosse at the mill (wills of Essex vol1 no.414)

Gt CLACTON

Clachintuna (Clacton)

In the land always in possesion of the Bishop of London, always one fishery, now one mill. [15,3]

1416 mention of fish weirs caled Avvssewere & Le Poll at Westnasse (Gt Clacton) [D/DU 40138]

Ltl Holland

At Little Holland Hall north of the site of the church are the remains of some ancient mill ponds - namely two ponds and a large basin which is embanked at the north end. [Essex Sokens, W Gurney Benham, 1928: pp62]

RAMSEY

Rameseim

In the lands of Ralph of Baynard, (was held by Aelric Kemp as a Manor), now one mill. [16,33]

Ramsey Water Mill, stood at the head of Ramsey Creek.

Map refs:

TENDERING

CROW MILLS

Map reffs:

ERO. TM151232

A & C 1775 mark a mill on the south side of the Tendring to Weeley road (Crow Lane) with the mill pond on the other side.

1825 Greenwood, Crowmill.

The site of the water mill is shown on early 25 inch OS maps.

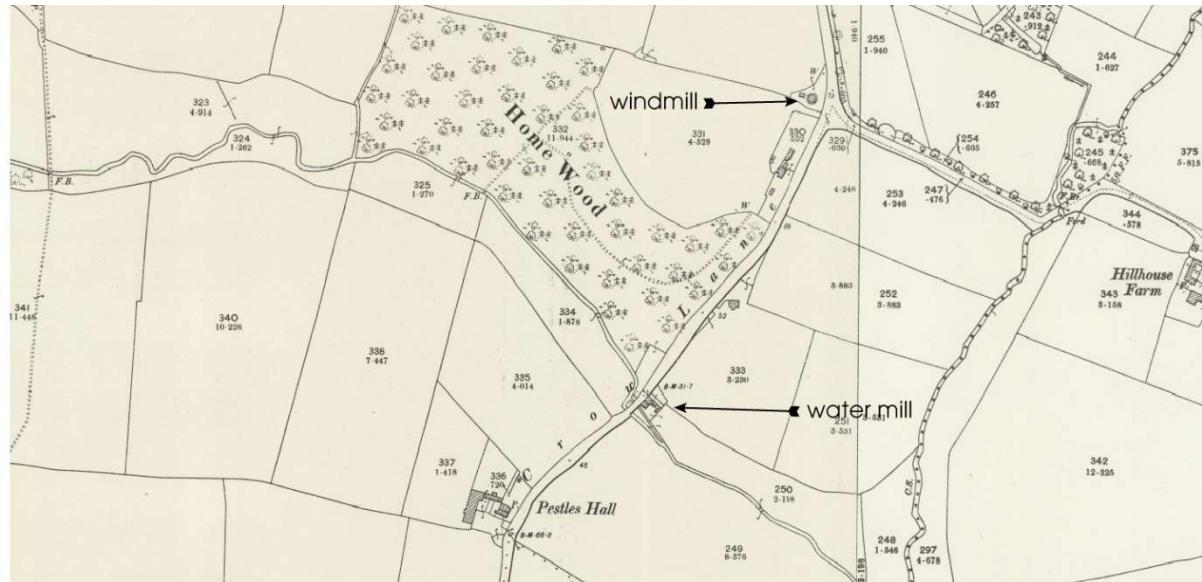

A water mill with messuage and lands in occ of Henry Tanner in Tendring, 1671, [D/DZy1]

Ipswich Journal 1786 :

To be sold: good hanging flour mill, a french stone 4ft dia, a cog wheel 6ft, dia spur whee 15ft 4ins, a fly wheel 3ft 6ins, a pair of wallowing heads 3ft, an axle tree 9ft long, an upright shaft with all brasses spindle gudgeons etc, shaft with all the brasses spindle gudgeons etc of a water mill lately dismantled. Several of the above articles are little the worse for wear.-- B Pollard, Tendring, Essex.

The water mill was worked with a windmill that stood on higher ground to the north.

The two mills were superseded by Tendring Mills at the northern end of Crow Lane. Worked by wind and steam power. The mills have been house converted, now Mill House.

Crow wind and water mills

E.C Vol12, gives photo of one of the mills in 1910.

Ralph Ketter of Lawford, Yeoman, mentions Sherborne mill in his will dated 6/12/1570. [Wills of Essex vol2; 771

The upper and lower mills in which are four pairs of French stones. The wheel of the upper mill is 18 feet in diameter and 6 feet wide with two pair of 4ft French stones. The frame of the mill is 60 feet long by 18 feet wide. The water when used in the upper mill drives two pairs of stones in the lower mill with a water wheel 18ft in diameter and 5 foot wide.

Ipswich Journal 1828: to be sold-two substantial brick and timber water mills situated within 100yds of each other working two pair French stones.

Ipswich Journal 1842 : Lawford flour mills to be let two over shot water corn mills in oc of Mr Wit Morgan with all the going gear.

SFI No. 43687--1780. John Cook mill, mills timber and tiled, upper and lower mills the lower with stables brick timber & tiled & thatched.

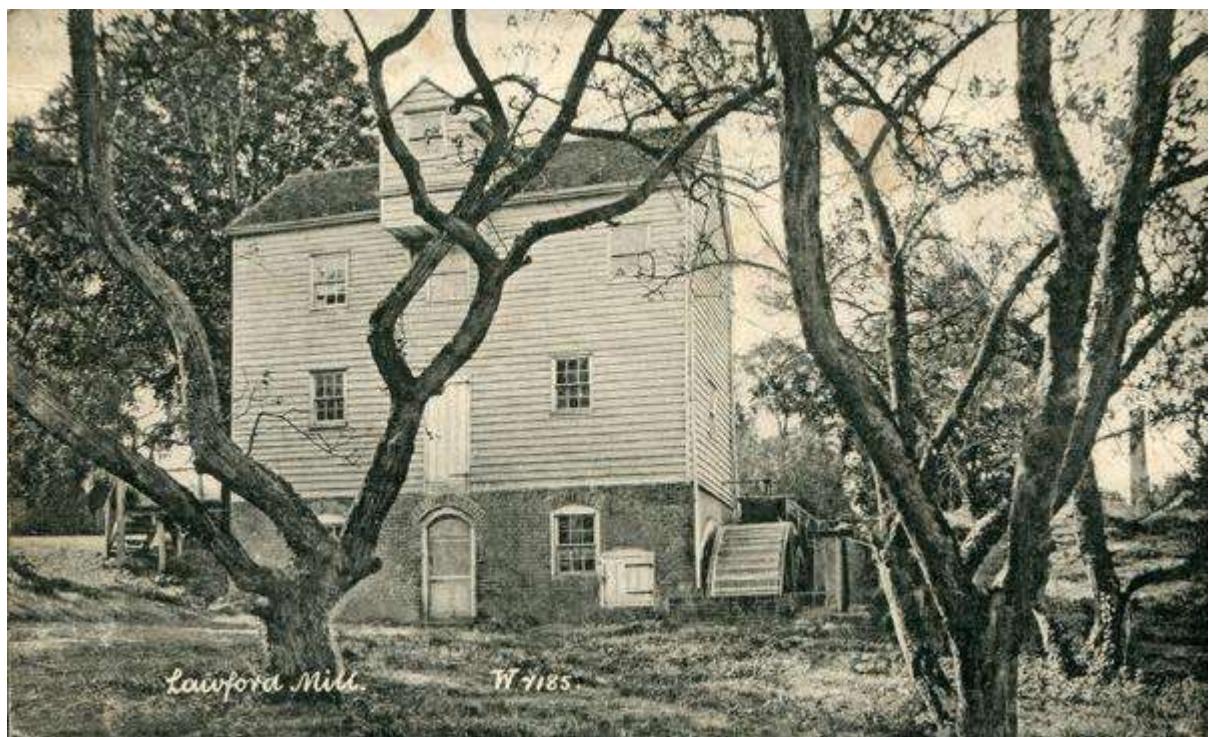

Chelmsford Chronicle : 1834/ to be sold by auction 2 substantial brick and timber water corn mills.

2 May 1807. Sherbern or Cookes in Lawford Nr Manningtree. 2 complete mills upon the same stream a convenient distance from each other in which are 4 pair of french stones water wheel 18 by 6 feet pit wheel 14 feet with all going gears in both. with a capital reservoir beautifully supplied by abundant

stream. fall to both nearly 35 feet capable of grinding upon average 12 loads per week. To be sold by auction 2 June 1807.

Upper mill demolished, lower mill wheel removed in 1930's. Over shot wheel mill weather boarded and tiled.

J. Booker. Batsford Guide to Industrial Archaeology 1980.~Former water mill, now empty. C18/C19. Timber framed and weatherboarded, red brick ground floor. Red plain tile roof. 3 storeys and loft with lucam to north face, outshot lean-to to south. North face. Central lucam on curved brackets, window to north. 3 window range of small paned vertically sliding sashes, moulded surrounds, those to ground floor with segmental heads, central door to first floor, central panelled door to ground floor within segmental head, small vertically boarded door to right. The south lean-to faces the mill pond and the exterior overshot wheel, removed 1930's, was to the east face. Of 5 bays with hanging knees to tie beams. 2 pairs of stones remain in the mill, one by H & C Collins, Milton and the other by Tinsby, Ipswich and 2 stone nuts. The dam wall curves to enclose the mill pond to the south and is of concrete faced brick. The mill stream passed under a bridge to the west of the Mill (not now visible) to drive the waterwheel. Once a partner to a long demolished upper mill.
